# 1200D Professional

**EXCEPTIONALLY EASY THREADING WITH  
JANOME'S NEW LOOPER THREADING!  
OVERALL, EFFORTLESS OPERATION WITH  
PERFECTLY PROFESSIONAL RESULTS.**

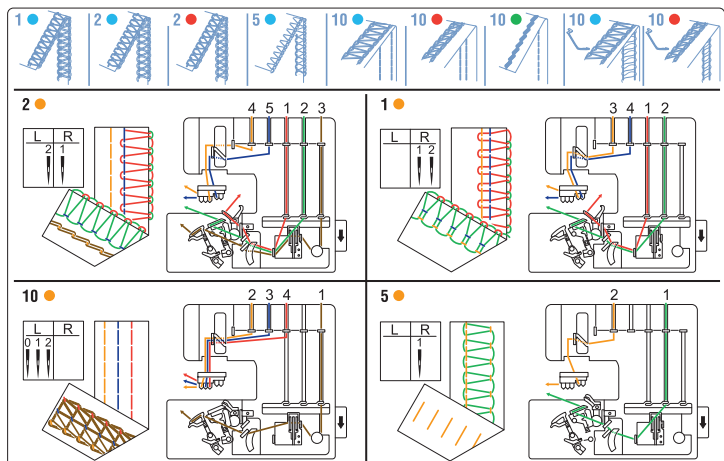

## TOP COVER HEM DEVICE

The new Janome 1200D has the ability to sew a 5mm or a 2.5mm TOP COVER HEM AS WELL AS A BOTTOM COVER HEM SIMULTANEOUSLY. This allows you to produce a true INDUSTRIAL STYLE COVER HEM.

## PROGRAM DISPLAY PANEL

Simply select your sewing preference and the Janome 1200D thread tension system AUTOMATICALLY ADJUSTS THE CORRECT TENSION SETTINGS FOR YOU! This provides you comfort and confidence in knowing that you can attain perfect results with incredible ease.

## THREADING INSTRUCTIONS

The 1200D incorporates yet another highly acclaimed Janome "ease of use feature" by having a convenient detailed threading chart located right on the machine.

## DIFFERENTIAL FEED AND STITCH LENGTH DIALS

Conveniently located directly in front of the machine for easy access, setting and reading.

## AUTO-UPPER LOOPER DEACTIVATION

The 1200D upper looper system will automatically deactivate when top cover hem sewing is selected.

## EASY CHAIN LOOPER THREADING

The looper threading system was developed to allow tremendous ease of threading. With the chain looper, threading is a breeze with such easy access. Simply turn the lever and the chain looper appears.

Various optional accessories to make creative sewing easy.
